1. An amendment (paper no. 9) has been filed on October 08, 2002.

- 2. Now claims 24-48 are under examination.
- 3. Rejection of claim 1 under 35 USC 112, second paragraph (see item 4 of prior Office action, Paper No. 7) is now moot.
- 4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 5. Claims 24-48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rastioli et al (WO 98/20073) in view of Corvasce et al (EP 0795581) and Bastioli et al (EP 0965615).

This rejection is incorporated here from same prior Office action and applied to new claims 24-48.

6. Applicant's arguments filed October 08, 2002 have been fully considered but they are not persuasive.

On page 11 of above paper, the applicants argue that there is no motivation to combine references as set forth in Office action, because of interaction of chemical moieties of these references. This argument is not persuasive since no supportive data have been presented by the applicants.

Applicants' next argument that "coupling agent/s of Corvasce may not work in Bastioli ('073) because they are temperature sensitive" is also not persuasive because Bastioli does extrude the composition at an elevated temperature.

Applicants' argument about Bastioli ('615) based on critical plasticizer concentration range is not persuasive because Bastioli ('615) is a secondary reference, relied upon only for its teaching of use of complexed starch

7. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
